

# MINI TIN CAN DRUMS

## DIY PROJECT TUTORIAL

### SUPPLIES

HOT GLUE  
ACRYLIC PAINT

PAINT BRUSH  
EMPTY CANS

BALOONS  
SCISSORS

RIBBON

START HERE

**1**  
Take a tin can and begin by adding your paint. This is where you get creative!

\*\*Allow to dry before next step!

**2**  
Pick out a balloon. With a scissors, cut your balloon just about where it starts to get big towards the base.

**3**  
Stretch the balloon over your tin can. You need to stretch it as much as possible to get the best drum sound.

**4**  
With the hot glue, add your ribbon to the seam of your balloon. This will help glue the balloon in place as well as glue on the ribbon.

**5**  
Now it's ready for some drum sticks!

**6**  
Find some drum sticks and you're ready to make some music! You can use paper tubes, pencils, paint brushes, or anything else you can find!

**ENJOY YOUR FINISHED PRODUCT!**

**\*ADDITIONAL NOTE\***  
ADULT SUPERVISION MAY BE NECESSARY FOR YOUTH AGES 10 AND UNDER!

**THANK YOU FOR YOUR SUPPORT!**
