

TISSUE BOX GUITAR

DIY PROJECT TUTORIAL

SUPPLIES

KLEENEX BOX

RUBBER BANDS

SCISSORS

PAPER TOWEL ROLL

PAINT/GLITTER/SEQUENCE

START HERE

1

Take a Kleenex box. Use scissors to cut around the edge of the opening to get out the plastic that the tissues come through. This will make it easier to strum.

2

Cut a hole on the side of the box for the roll. Put the paper towel roll on top, trace it with a marker, and cut along the lines

3

Insert the paper towel roll in the hole. Make sure it's about two to three inches in. Glue may be used to hold the roll in place and make it sturdy.

4

Add the rubber band strings. Wrap a couple of rubber bands around on each side of the paper towel roll. Different types and sizes of rubber bands may be used to create different tones and sounds.

5

Decorate the box. Add stickers, paint some art designs, spray paint it, sprinkle glitter on it, and anything you would like.

6

Now you're ready to make some music!
ENJOY YOUR FINISHED PRODUCT!

ADDITIONAL NOTE

ADULT SUPERVISION MAY BE NECESSARY
FOR YOUTH AGES 10 AND UNDER!
